

# THE HAMLIN HERALD

30th YEAR—EVERY WEEK SINCE 1905.

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, SEPTEMBER 13, 1935.

NUMBER 46.

## Hamlin Schools Opened Monday With All-Time Record Enrollment

Monday morning was a big day for Hamlin's school system. It was marked by the greatest number of students so far this city has ever had.

The two plants, had unusually good opening programs, and the chief point in everyone's remarks was a wide welcome to the high school students coming into Hamlin for the first time.

Three big pretty new busses brought about 90 pupils from farm sections, and thus again a modern step has been taken. It would take a long time to enumerate the good features for the students who can come into school in a safe, comfortable, economical conveyance. It beats the way some of us had to do in "the good old NINETIES." Foot-back or on a horse through ungraded roads, in the rain and the mist and snow. Well!

The latest reports for the Grammar School enrollment is 374.

For the High School, Supt Green reports 412, making a grand total of 786.

The increased enrollment this year is going to place a hardship on the faculty and the accommodations, in spite of the fact that Hamlin has one of the best and most commodious high school buildings in this part of the state.

Take it any way you please school is the big thing for any community.

The only thing that approaches school importance is "water."

To see the 800 or more boys and girls trooping to the school buildings is enough to stir the best patriotic feelings in any man's heart. But few of us know much about our

school system, whether it is being run O.K. or not, and this proves we are willing to let the "other fellow" do the work.

What the public thinks and how the public act toward the local public school often determines its effective work. It is an easy place to waste time and a good place to make time.

### JAKE DIED SUDDENLY

One of Hamlin's famous bird dogs, Jake, raised by the late D. J. Payne, passed to his happy hunting grounds last Sunday.

Jake outlived his brother, the Wilson bird dog that died a few months or a year ago.

Jake had been a constant companion of Mrs. Payne since his master died. He became too old to see well and his hearing failed him and the chill of the rainy weather was too much for his frail old body.

### FOR SALE AND BARGAINS

Will sell for CASH my gas stoves (heaters) fables, large and small, waffle irons and a set of dishes, electric toaster, iron, range, fans, one large punch bowl and 12 cups, lawn mower, and other yard tools including a new post digger, and wheelbarrow, fruit jars, one 30-gallon wash pot, one \$137 Atwater Kent Cabinet Radio, in good condition, will sell cheap; and other household articles.

Inquire of Mrs. Wroe Brown at the Arnold home. (46-2t)

"The law of love is quite harmonious with the love of law."

### LOW'S MARKET INSTALLS A MODERN FRIGID-COUNTER

That fellow Sip Low is not asleep as much as some may think. He can shut one eye and see farther than most of these "moderns" about over Texas.

He takes a pride in the lovely, modern Frigid-Counter, recently installed. He says "meat's meat" and its better when chilled, and makes a person hungry to see it in that new counter. Just go look at it.

The Herald received a welcome letter from W. L. Hinton at McLean, Texas, this week. W. L. is an old-timer from Hamlin and he tries to keep up with this community through the Herald. He sends a check for \$2 to have the Herald sent to him and to Mrs. J. R. Hinton, at Floydada. Thanks "a heap." There are lots of others who should do like Mr. Hinton, too.

Mrs. Al Sledge of San Angelo, came up Monday to visit her parents, Mr. and Mrs. Bill Carter.

### TWO NEW SETS OF GRANDPARENTS

Monday morning a fine young man came to the home of Mr. and Mrs. Milton F. Wilson. He tipped the scales at nine pounds, and will soon be stepping about. This youngster means that there are two new sets of grandparents in Hamlin—Mr. and Mrs. W. F. Johnson and Mr. and Mrs. Oscar Wilson.

## MANY WPA PROJECTS FOR HAMLIN AND CO.

These days readers of newspapers notice much about WPA projects, and most persons build up great expectations about what their communities are going to get from the government through a set-up of relief work.

Don't get your hopes too high. It seems that there is friction up at Washington between Mr. Hopkins and Mr. Ickes. Mr. Hopkins turns them down for the many various reasons and Mr. Ickes wants them turned into action. This is as we expected. Some time ago when we were in Abilene we found out that if any WPA project got by it had to meet almost impossible requirements. All of the whole thing is a "relief" project and if there appears not enough relief labor, or the cost of materials is out of proportion to the labor, or if this and if that and the other thing does not block the project then maybe it all goes over and finally by the winter of 1937, work will start. So don't be too much puffed up.

### JONES COUNTY HAS MANY PROJECTS OK AT DIST. OFFICE

Looking over the reports from the District Office at Abilene, we find that Jones County, and Hamlin have had several projects approved. Listed here they are:

Jones Co. Road Construction, \$30,290 federal funds total including county fund, \$39,000, calling for 676 "man months."

Anson: street construction, \$2,991 federal funds—total \$5,281, 102 man months.

Anson: Park and swimming pool, \$9,600 federal funds; \$12,850 total, calling for 200 man months.

Hamlin: Sanitary system repairs, \$12,500 federal funds; \$20,677; total and 360 man months.

Hamlin: Street paving, \$8,765 federal funds, \$9,765 total and 243 man months.

Jones Co. School improvements, \$4,330 federal, \$5,226 total and 150 man months.

Anson: Dam and Lake \$19,937 federal funds, \$28,467 total calling for 399 man months.

Hamlin: Dam repairs \$5,450 federal funds; \$10,900 total, and 147 man months.

Jones Co.: Library Building, \$4,816 federal funds; \$8,656 total and 120 man months.

Jones Co.: Road construction, \$19,757 federal; \$24,972 total and 444 man months.

Hamlin: Swimming pool, \$5,200 federal funds; \$9,000 total; 138 man months.

Jones Co.: Road construction, \$30,150 federal funds; \$42,200 total, calling for 672 man months.

Stamford: Rifle range, \$1,599.10 federal funds; (no local funds) 40 man months.

So we see, that if all these can run the gauntlet in Washington, there will be plenty of work when everything is "set" and going. But maybe nothing much will really be done.

Besides all the above projects in Jones County, there are many approved in Fisher and Stonewall and all around us—including a huge Fort Phantom dam and irrigation work in Jones County, sponsored by the City of Abilene.

Let's all remember that every project, called for except one, means that federal funds are to be paid back in part, som day. The whole thing is an effort to restore "life" by giving labor. Then let's also remember that when all these projects are finally completed, not many of them will mean continued labor for men or better living quarters for their families, and that all this is a kind of make-shift, till maybe something permanent can be worked out. Men must have something of their OWN to work at and not expect to merely exist on "made labor." The publisher of this paper may be the biggest fool in the U. S. but all along we have contended that there is absolutely no chance to absorb all the unemployed, down to the normal of about 2,000,000 idle fellows, by private enterprise. If there be one job and ten men wanting it, what

## SUNSHINE TAKES PLACE OF RAIN

Till last Monday morning, West Texas slipped and滑 in rain and mud, since the first of September. Ten full days of rain with only little spell of sunshine.

Monday was an ideal day famous of West Texas in the fall time. Crisp fresh air, wet earth, green grass, velvety lawns, and dirty streets.

What about crops in such a wet spell. As far as can be ascertained crops have grown mighty fast. Cotton seems to have come through with well matured fruit. Worms could not work much in the rain, and if now they can be kept in check for a few more weeks, injury from that source will be past.

It's most too late for boll worms, but not for weevils. Boll worms don't like chilly weather. Cool nights and mornings seem to cast a spell of laziness over them.

Rains in early September mean good fall plowing and early wheat. Rain now lays a foundation for early farming activities in 1935.

One of the economic effects of the continued wet weather, is that it slowed up the cotton opening and therefore will make the season extend far down into winter, unless there is no more rain. Feed stuff probably suffered more damage than any crop. Some of it was ready to gather and even some was cut but not under shelter, and is damaged.

It now looks like there will be

about the other nine?

One-half of the present so-called unemployed can be assisted to a place of individual enterprise and the other half will then have a chance for a day-labor job. That's all some men want, and all some men can hold. So, let's face the situation as it really is, and not make-believe.

The City Council of the City of Hamlin, Texas, will receive sealed bids at its next regular meeting, September 17th, for the custody of city funds for the ensuing year. All bids should be in the Office of the City Secretary on or before the above date. The Council reserves the right to reject any or all bids.

J. B. EAKIN,  
City Secretary.

In this week's Herald you will find the announcement of Mrs. G. Cleve Dunn, who is opening up a Ladies' Ready-To-Wear store in Hamlin. She is naming it the "Rose Shoppe." The "Rose" is a part of her name (formerly Miss Neppie Rose Russell). She represents one of Hamlin's pioneer families and in spite of firm name, any store she operates in Hamlin will be spoken of as "Miss Neppie's Place." She operated a ready-to-wear shop in Hamlin several years ago.

more work in this country, at least for about two months than can be done with the available help. Yet, it would be a mistake to import labor when there are so many who must have every day that they can fill. It is already noticeable that the country is well filled with "transient" fellows. Saying that they want work. Some are hungry, some ask for a place to sleep, saying that "back yonder" the country has gone "bluy." It appears that certain fellows thin' that "over yonder" is a better place to get by and keep going "over yonder."

Under the present situation in this part of Texas, there is not enough private labor to absorb the men who need work. Rains help make work, but there are not as many jobs as there are men (and women) wanting them.

—It Pays to Look Over the Ads.

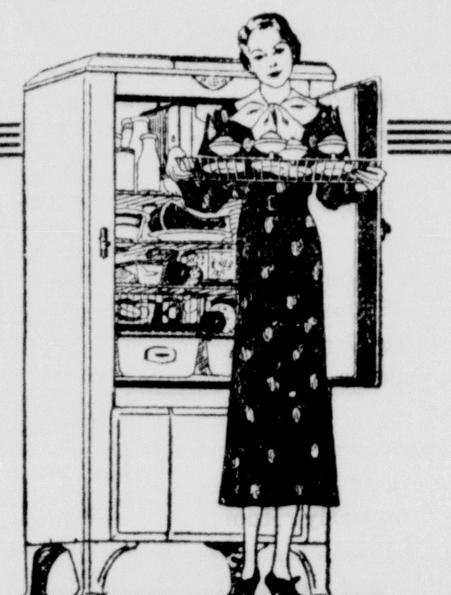

CONSTANT TEMPERATURES

BETWEEN 50 DEGREES

—PLENTY OF ICE AND FROZEN DESSERTS

... that's what your  
Electric Refrigerator  
will give you

Temperatures will be kept below 50 degrees inside the cabinet of your electric refrigerator, which is necessary for the proper preservation of food. If temperatures fall below this safety mark, molds, germs and bacteria immediately cause foods to decay.

Electric refrigeration gives you this necessary food protection and also many other added conveniences. There is a surplus of refrigeration power to quickly freeze ice and desserts for the family's needs.

The health and happiness of the home demands food protection the entire year—summer and winter. You can rest assured that foods will be properly preserved with dependable electric refrigeration.

## THEY HELP THE TELEPHONE PEOPLE HERE

You'll find the homes of the telephone system in the quiet, shaded streets of a thousand towns and cities throughout the land. In little buildings where the operators work, and through whose doors come and go the men who build and maintain the lines.

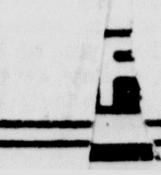

Every other part of the Bell System exists simply to serve them—

American Telephone & Telegraph Company, parent company of the Bell System with its staff of telephone experts. Bell Laboratories, with its hundreds of research scientists intent upon telephone problems. Western Electric, with its factories and its far-flung purchasing organization.

This entire, specialized group of companies has one purpose only: to help the men who patrol the lines, and the women who keep constant vigil before the switchboard here, do a better job of giving you good, economical telephone service.

If you want to buy or trade for a good trailer with good rubber and cotton sideboards see me. Also a Model A strip-down, painted for sale, and a two-wheel stock trailer for sole sale or trade.

C. C. RENFRO. (p)

Miss Annie Laurie Johnson has returned to her school work in Ft. Stockton after spending the summer at home with her parents, Mr. and Mrs. W. F. Johnson.

The Herald has a letter from Miss Mary Emily Allen, formerly Home Economics Teacher in Hamlin, saying she has resigned her position with Texas Rural Communities at Woodlake and was at the bedside of her mother near Austin. She says her mother is dangerously ill. The Woodlake project is to be taken over by the government Resettlement Department.

WANT TO TRADE FOR MAYTAG

I have a good electric washing machine to trade for your equity in a late model Maytag.

Give the Big Fish a Big Hand—

You'll Like Its New Roles

SMART entertaining means keeping pace with what's new in food as well as fun. Summer party foods must be breezy as a zephyr, and lovely to look at. But because they must also be very delicious to eat, tuna comes out in new costumes and takes a bow.

When we open a can of tuna fish, or any of the other delicious canned fish we do not feel that it is any special occasion. That is because we have become accustomed to the ease of having these choice fish. The ancient Romans, on the other hand, went to great lengths to serve fish at their feasts because food from the sea was difficult to obtain, and conferred prestige on the host.

Epicures Approve

Epicures of those days, and of today, approved the taste of fish, and the correct preparing and serving of fish still confers prestige on the host. Many people, however, do not know how to prepare and serve fish correctly. For this reason canned fish is particularly popular. It comes to us perfectly prepared, and ready to be enhanced, if we like, by simple cooking methods, or merely with delicious sauces.

Sauce makers used to be known as Sauciers, in the middle ages of France, and they were licensed by the municipality to sell sauces to royalty and townsmen. Their traditions may still be traced in some of our best fish sauces served to-day.

Tuna fish is one of the least expensive of the canned varieties, yet it looks very much "in the grand manner" when it is cast into jellied salads or soufflés. Following are suggestions for each of these dishes and also a delicious fish sauce recommended by the Fish and Sea Food Institute.

Add to Your Summer List  
*Creamy Sauce:* Make a foundation White Sauce by heating two tablespoons butter in a saucepan, stirring until it bubbles a little, and then adding slowly two tablespoons of flour which has been mixed with one-fourth teaspoon salt, one-eighth teaspoon pepper and one-fourth teaspoon paprika. Stir until well blended and then add one cup milk which has been heated, gradually over the butter and flour mixture. Stir constantly and let it simmer about two minutes until smooth and creamy. To this cream sauce can be added hard-boiled eggs cut in eighths to make an egg sauce, if preferred.

*Masked Tuna Loaf:* Soften one teaspoon gelatin in two tablespoons cold water and dissolve in four tablespoons hot vinegar. Mix with the contents of a one-pound flat can of tuna fish which has been mashed, and add one-half teaspoon salt and a few grains of paprika. Pack into a loaf mold and chill. Meanwhile, soften one-half teaspoon more of gelatin in two tablespoons cold water and melt over hot water. Then pour slowly into one-half cup of mayonnaise, beating all the time. Chill. Turn out the tuna loaf and spread the sides and top with the mayonnaise. Decorate the top and sides with sliced stuffed olives and strips of pimento. Let chill and stiffen. Serve sliced. This serves six persons.

*Tuna Fish Soufflé:* Add two cups of tuna fish to two cups of thick white sauce. Then add one tablespoon lemon juice and the beaten yolks of six eggs. Fold in the stiffly-beaten whites of the six eggs, and pour into a buttered baking dish. Set in water and bake in an oven of 325 degrees for forty-five minutes or until

TEXAS

## COLLEGE DAYS CALL MANY YOUNG PEOPLE

Beginning this week-end, there will be many lonesome homes about Hamlin, as usual this time of the year when so many young men and women either enter college or university for the first time or return to continue their studies.

Not many years ago hardly anybody from Hamlin went "off" to school. But as our community grows, and as the ideals of the country change, there is an ever growing desire for the young folks to get a higher education, wherever possible.

Below we are attempting to list all who are going away this week or soon to leave:

Baylor Medical College, at Dallas is where Robert Johnson, a recent graduate of the State University, will enter. Robert has laid a fine foundation for his medical career, and his many friends of Hamlin congratulate him on his successful entrance in Baylor Medical College.

A. & M. COLLEGE will again be attended by Edward Bryson, Thad Harden and Groom Shepard.

Baylor College, Belton, is where Miss Della Bryson is again entering.

Baylor University will have a crowd of Hamlin folks this year. Miss Florence Boyd, will be a Senior there this term. H. O. Cassle, Jr. is returning to Baylor and Miss Geneva Albritton has transferred from Mary Hardin Baylor to the Waco school, and the new ones from Hamlin are Ray Willingham, Marvin York, and J. C. Turner.

Texas State College for Women, Denton, is where Miss Ethlyn Allen will enter as a first year student. Miss Doris Pope leaves this Friday to enter this school again and this year as a Senior.

Texas Tech will have Paul White and Delma Shelburne, Wortham Crow and Winifred Joiner again and the new student from Hamlin will be Warren Nobles.

Rice Institute is again the

choice of Richard Feagan. Simmons University will have Carol Benson and W. W. Collier again this year.

Abilene Christian College is where Misses Louise Reynolds and Eva Willingham will continue their studies.

Texas University will have Miss Peggy O'Donnell as Hamlin's representative this term.

The Herald is sure we have not rounded up all the college boys and girls who are going to college this fall, but if we missed anyone, please some tell us and at a later date we will tell about them.

Mrs. F. A. Peel, who has been spending the summer in Marfa, Texas, is here to visit her sister, Mrs. O. G. Ebert, before going to her home at Tulia, Texas. She was accompanied here by Mr. and Mrs. J. M. Rosson of Marfa.

### MARRIED

Last Sunday, Mr. Lester A. Bradshaw, of this city, son of Mr. and Mrs. W. D. Bradshaw, was united in marriage to Miss Ellen Farrow, of Ada, Oklahoma.

Mrs. Bradshaw formerly lived in Hamlin, was a student in the Hamlin High School last term.

They will make their home in Hamlin.

### Try CARDUI For Functional Monthly Pains

Women from the 'teen age to the change of life have found Cardui genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Crit Haynes, of Essex, Mo., writes: "I used Cardui when a girl for cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

### MARTIN McCAIN APPOINTED STATE BANK EXAMINER

Martin McCain, formerly Cashier of the former First National Bank of Hamlin, was over from his office in the Credit Corporation in Stamford, Tuesday, telling his old friends goodbye, as he was already moving out of West Texas to Bryan, where his headquarters will be as State Bank Examiner.

Mr. McCain was appointed promptly after the New Banking Commissioner McCreary took the place that E. C. Brand held. McCain has considerable property in the Hamlin community and this will mean that this family will still think of Hamlin as home.

### NOTICE

#### TO THE PUBLIC

## SECURITY FOR THE GOOSE

A full-blooded Pima Indian out in Arizona needed some cash, so he went to a banker and asked about a loan.

"How much do you need?" asked the banker.

"Me want \$200."

"For how long?"

"Maybe two weeks; maybe two months."

"And what security have you?"

"Me got 200 horses."

This seemed sufficient security and the loan was made.

A short time afterward, the Indian came into the bank with \$2,200 cash, paid off the note, and started to leave with the rest of the money.

"Why not let us take care of that money for you?" asked the banker.

The old Indian's mind flew back to the day when he wanted \$200 and, looking the banker straight in the eyes, he solemnly asked, "How many horses you got?"

## FOREWARNED

A wedding was taking place in a certain town. Crowds had gathered around the church to watch the proceedings.

A beggar took advantage of the circumstances, and walked up and down on the opposite side of the road singing.

Just as the bridegroom arrived there was a roar of laughter, in which the bridegroom himself had to join, for the beggar was singing, innocently, in a rough bass voice, "Have courage, my boy, to say 'No'."

James (Rookey) Owen came up Sunday from Greggton, down near Longview, to spend a few days with his parents, Mr. and Mrs. Oscar Owen.

## DEPRESSION PRAYERS

Modern Youngster: "What are prayers, mother?"

Mother: "Prayers, darling, are little messages to God."

Youngster: "Oh, and we send them at night to get the cheaper rate."

Preston Phenix, who is reaching an age near 80, was taken to the Abilene Hospital last week for treatment. An operation was performed Monday and it is said he stood it well. His condition is not altogether satisfactory yet.

## FOR SALE

I am now offering for sale the live stock consisting of several good Mules, Horses and Mares, and one high bred stallion. And all cattle. Also all farming implements of the estate of Mrs. Harriette E. Hill.

Those wishing to purchase any of this property or all of it, may call on me at my Office, over F. & M. Bank, in Hamlin.

H. O. CASSLE (45-2t)

## Special Inducement

We have just finished remodeling our shop and would like to have you come in and see us.

With each shampoo, set and dry, we are giving a FREE Mar-O-Oil Shampoo.

You can now get your fall permanent, two for the price of one.

## Magee's Beauty Shoppe

# Announcing

I am glad to be back in Hamlin and to announce that I will again be in the Ladies' Ready-To-Wear business.

It will be a genuine pleasure to greet my customers of former days and to meet the many new people who have moved to Hamlin since I was last in business.

New stocks of merchandise will begin to arrive almost daily and I am confident that we will be able to please as we have in the past.

The many nice things that have been said about my again entering the Ladies' Ready-To-Wear business in Hamlin makes me feel awful good and also to know that my friends are most generous and I hope to merit this friendship by running a modern Ladies' Ready-To-Wear business that Hamlin and its surrounding community will be proud of.

I feel that I am most fortunate in having one so well and favorably known to be associated with me as is

## MRS. ANNIE LAURIE JOHNSON

She will be glad to see you and to make you feel at home in our place of business and hope you will come to see us often.

## COME TO SEE US

## The Rose Shoppe

MRS. G. CLEVE DUNN, PROP.

Watch for the  
Announcement of Our  
FORMAL OPENING

## JUST FOR WOMEN

THE JANE BEAUTY SHOP has moved into the building just east of its former location and is now ready to serve the public in a bigger and better way.

New equipment has been added and all modern convenience has been provided, that is to be found in an up-to-date, well equipped Beauty Shop.

After a three weeks vacation, Miss Louise Southard is again with the shop and will be glad to serve her customers. Mrs. Gibbons, another of our operators, is also ready to welcome and serve you. Miss Francis English, a graduate of the Parsons Beauty School in Abilene, has been added recently to our staff. She has had five years experience in all lines of Beauty work and is eager for a chance to serve you.

The owner and operators welcome you to our shop. Come visit us in our new location and let us serve you in any and all types of Beauty Work.

THE JANE BEAUTY SHOP,  
(Owned and Operated  
By Mrs. Wooten)

MR. AND MRS. JOHN ED DAY'S  
BABY LIVED ONLY A FEW HOURS

A baby boy was born to Mr. and Mrs. John Ed Day on Thursday of last week, at the Stamford Sanitarium. For 18 hours everything possible was done to get the little fellow started off properly, but at 4:30 P. M. Friday, death came.

This little fellow was given the name, John Ed, Jr.

The Barrow Company placed the body to rest in East Cemetery Saturday morning at 10:30.

The parents have the sympathy of all their neighbors and friends in this hour of disappointment. Mrs. Day is still in the sanitarium for special care.

U. S. NAVY REPORTS  
HAMLIN BOY JOINED

Mrs. G. Cleve Dunn, sister of Mr. W. C. Russell of the F. & M. National Bank, arrived Sunday from her summer home at Ruidoso, New Mexico, where she enjoyed her second season operating the Texas Cabins. Mrs. Dunn encountered unusual hardships on her return trip. Heavy rains, muddy roads and worst of all, a rear wheel of her car came off near Brownfield, Texas, and it came near causing serious trouble. A trailer perhaps held the car from turning over. It took some time to find the wheel as it jumped into a field and kept running. Mrs. Dunn was accompanied by a colored girl and when the car finally stopped the only racket was a couple of women crying and the radio ringing out the loud song of some crooner. Then when they neared Hamlin it looked like the surroundings of Noah's ark.

"Whatever makes men good Christians makes them good citizens."

Another  
HOUSEHOLD TRADITION  
SHATTERED

- The washboard, the boiler, harsh bleaching agents, careless hands—none of these are necessary.
- In over 2,000,000 homes the Maytag washes everything clean in an hour or so—so gently that clothes actually last longer—and at home where you know conditions are sanitary.
- The Maytag gives you more years of low-cost washing than an ordinary washer because of its mechanical perfection and many exclusive features.

LET YOUR DEALER DEMONSTRATE—AND EXPLAIN THE EASY PAYMENT PLAN

## THE WORK OF CREDIT

**Bank Shows How It Gives Needed Aid to All Classes of Prudent Borrowers**

How a bank loan portfolio presents a graphic cross section picture of the business of its community is disclosed by the description which a midwestern bank recently gave of its loans to customers. It revealed also how closely interwoven with its neighbors' varied lives are the threads of the bank's financial helpfulness.

This description showed that the bank had made a loan of \$100,000 to a local shoe manufacturer to purchase materials, discount bills and meet current requirements.

To a wholesale grocer \$95,000 had been advanced for the purchase of inventory, the loan to be repaid over a period in accordance with specified terms set forth in the loan agreement.

### Assistance in Personal Matters

Another loan had been made to a home owner to the amount of \$200 for painting and repairing. This was made in cooperation with the Federal Housing Administration and was being repaid in twenty-four monthly installments of \$8.33 each.

A dentist had been loaned \$300 to purchase new equipment. He was paying off the debt out of his professional earnings as they came in.

To a large domestic refrigerator distributor \$30,000 had been granted on warehouse receipts to finance dealer shipments.

A home owner had been granted a \$3,000 mortgage loan to be repaid in three years.

One thousand dollars had been advanced to an office worker on the cash surrender value of his insurance policy to aid him in meeting an emergency.

### The National Total

If each of these various examples were multiplied many times the result would represent the total volume of credit cooperation which the bank was extending to its neighbors in its community, for aggregate loans to all its customers amounted to more than twelve million dollars.

If the typical examples here given were multiplied by many millions of times the result would represent the total economic cooperation which the banking system of the country as a whole is extending to aid the innumerable personal, professional, industrial and commercial activities which make up the whole business life of the nation. The nationwide total of such loans is in excess of 20 billion dollars.

## BANKS PLAN ADVERTISING

Substantial funds have been set aside from reserves of the American Bankers Association to finance the development by its Advertising Department of a service of informative newspaper advertisements setting forth in brief, popular language the methods and policies under which banks operate, their effective practices for protecting their depositors' funds, the services they render and the various ways in which they cooperate with business in their own communities in fostering sound recovery and progress.

Some 350 banks are now using this material and it is available at a moderate price for all of the members in the association who care to use it in bringing about better public understanding in their own communities regarding banking and its services. It has materially stimulated the use of newspaper advertising among banks.

Many favorable comments have been expressed regarding the informative and constructive character of its messages. It is issued in two sizes: the larger size is 3 columns wide by 10 inches deep, but in some instances subscribing banks have expanded this to occupy full pages in their local papers in order to obtain a more emphatic effect. Four pieces of advertising copy are supplied each month in this service.

## BANKERS SUPPORT ACTIVE AGRICULTURAL COMMISSION

The Agricultural Commission of the American Bankers Association is promoting widely among bankers the practice of aiding their farm customers in installing on their farms better financial, accounting and operating methods. It also cooperates in the endeavors of the state bankers' associations along similar lines.

The commission has published a book on "Making Farm Investments Safe," presenting a compendium of helpful material published over a period of years as a reference guide in the daily routine of banking and farming relationships. It has also published "Factors Affecting Farm Credit," discussing in an illustrative way how farm credit can be obtained on a sound basis.

Another publication is the monthly bulletin of the commission which circulates to about 10,000 persons, among them the county agents throughout the United States, who make frequent use of the material and suggestions prepared by the commission. Likewise, the commission has appointed 2,300 key bankers covering every county in the United States, who act as focal points in their districts in fostering better understanding between bankers and farmers.

## A HUGE BANKING SYSTEM

The latest official figures covering all banks in the United States show that there are 16,042 licensed banking institutions of every kind and that over 32,000,000 persons have entrusted them with their deposits to the amount of \$4,860,000,000.

## PUBLIC CONFIDENCE CONTINUES TO GAIN

**Bankers Report Nation-Wide Improvement in Attitude Toward Banks—Educational Campaigns Play a Part**

NEW YORK.—Ninety-six per cent of over 300 reporting clearinghouses throughout the United States find concrete evidence of favorable turns in public opinion regarding banks, it is shown in the results of a survey made by "Banking," the monthly publication of the American Bankers Association. City and country districts in every state are represented, it is pointed out.

"The outstanding conclusion is that there has been a genuine nation-wide improvement the last few months in the attitude of the public toward its banking institutions," the publication says. Statistical evidence on which the bankers base their conclusions which warrant this statement is as follows:

### The Evidence

"How do bankers know there has been an improvement in the public attitude? They have certain statistical evidence. They have seen their deposits increase substantially in nearly all the cases reported, and tremendously in some cases. Many letters tell of increases of 100 to 300 per cent from the low point of the panic."

"For another thing, they know that fewer people are using safe deposit boxes as a repository for their savings, and that, in many instances at least, postal savings are declining."

"However, many express the view that they could throw out the statistical evidence and still realize that the public is in a better mood where the banks are concerned than before. The best evidence offered on this point, numerous bankers say, is to be found in the acceptance by the public of the newly instituted service charges and the reduced deposit interest rates."

**A Summary of the Returns**

The statement presents the following summary of the survey:

"We find on breaking up the general classifications of replies to the poll that the 65 per cent of those answering with an unqualified 'yes' represent only a partial measure of the optimistic feeling. Adding the favorable replies included in other groups, (i. e. 'yes' with qualifications, 'no change,' and 'mixed') we find that the vote shows a definitely healthy situation in 84 per cent of the localities reporting; at least some signs of improvement in another 12 per cent; a continuance of unfavorable conditions in 2 per cent, and a change for the worse in another 2 per cent. It is not too much to say that this is substantially 96 per cent favorable."

### Reasons for Changed Public Opinion

As to reasons for the changes in public opinion regarding banks reported by the clearinghouses "more than one organization has a word to say about the American Bankers Association advertising and educational material," the magazine says.

It mentions in addition the benefits of the Federal Deposit Insurance Corporation in the emergency, improvement in the general business situation, the weeding out of weak banks and the banking moratorium.

"The response to the survey can be put down as encouraging and informative," the magazine concludes. "It holds out the definite hope that with a continuance of a cooperative, educational attitude on the part of the bankers the rest of the journey back to normal may well be completed in the not too distant future."

## BANKERS ACTIVE IN SOIL SAVING MOVE

**Issue Book Describing Causes, Ravages and Means of Prevention of Erosion**

MADISON, Wisc.—Under the title "Protecting Investment Values in Land," the American Bankers Association Agricultural Commission has published a booklet dealing with the conservation of soil resources as a pressing national problem.

"Careful estimates indicate that 750,000,000 tons of soil, suspended and dissolved, are carried off to the sea each year by running water," the commission's book declares. "An equal amount removed from its source is left en route. This means a total of 1,500,000,000 tons, equal to approximately one ton for each acre of land in this country. The Soil Conservation Service estimates that 35,000,000 acres have been ruined.

"There are 125,000,000 acres that have lost the valuable topsoil, and it is estimated that still another 100 million acres are being converted into marginal or sub-marginal land, bringing disaster to those trying to eke out a living from erosion enfeebled soil, and threatening ruin to the next generation, since these destructive forces are going on at an increasing rate."

In a chapter devoted to control and preventive measures for soil losses it describes terracing, strip cropping, wind erosion control, gully control and the control of losses from leaching.

Other chapters are devoted to soil resources, the toll exacted by soil erosion, methods for keeping soils productive, state and national uses for non-agricultural land, forestry in a soil conservation program and wild life in a land use program. The booklet describes in detail the marshalling of many forces which is being brought about under the leadership of the Soil Erosion Service to meet this national problem.

## LET'S BRING DOWN THIS COST, MR. FARMER!

Replacements of their machinery, automobiles and implements cost U. S. farmers approximately \$400,000,000 annually. Poor lubrication is to blame for much of this cost. To help farmers reduce this expense, hundreds of farm equipment manufacturers recommend Sinclair lubricants—the lubricants we sell.

Let us tell you about it. We sell Sinclair Opaline and Sinclair Pennsylvania Motor Oils, Sinclair Tractor Oils, Sinclair H-C Gasoline, Sinclair Cup and Axle Greases, Sinclair Opaline Gear Lubricant, Sinclair Super-Flame Kerosene, Sinclair Stock Spray, Sinclair P. D. Insect Spray and all Sinclair Farm Oils. Just phone or write.

**BUT** who wants to sleep on an apricot? It's not that kind of jam. Save it for eating purposes. Canners call them "cots" for short, but that's because they are so busy canning them to meet the demand, that there's not much time to talk about them.

So if you want to know a little more about this fruit that tastes so good, here is a brief saga. Its three species are, it is believed, all native to Asia. During the time of Alexander the Great it was introduced into Europe and first cultivated in England during the sixteenth century. Today it is one of California's most important fruit crops.

### Orchard Flavored Fruit

Fresh picked apricots are difficult to get in most localities, because the season commences about the middle of June and lasts only about eight weeks. Unless you go out to the orchards you are not likely to get the fruit at its best, because of the delicate texture which does not stand shipment well.

Canners, however, have made an intensive study of "cots," and their orchards produce only the prime fruit, which is picked and canned so quickly that the apricots which we know in cans are some of the very finest possible.

Housewives have found that their tart taste combines nicely with many fruits which are less distinctive in flavor. For this reason, "cots" are to be found in some of the best fruit cups, salads and desserts.

Do you know the new ways of making the most of this healthful fruit? The following suggestions

have been chosen because of their summer slant and because they give a decorative appearance to your menus, as well as adding a new flavor. Serve them in your prettiest glassware or china—they rate it.

### For Instance

**Circe's Cup:** Cut in halves the apricots from a No. 2 can, add the grapefruit pulp from a No. 2 can (or one and three-quarters cup of fresh grapefruit). Leave the grapefruit in fairly large pieces. Divide into glasses. Mix the juice of the apricots and the grapefruit with the juice from one lemon. Pour over. Chill very well, sprinkle liberally with finely minced mint and serve. This serves eight persons.

**Apricot Custard:** Beat four eggs slightly, add three tablespoons of sugar, one and one-half tablespoons flour and a few grains of salt. Add one and one-half cups of scalded milk and the apricots from a No. 2 can, pressing them through a sieve. Heat to boiling. Pour into individual custard cups, place in hot water and bake in a moderate oven—350 degrees—until firm, or about forty-five minutes. Serve cold from the cup. This serves eight persons.

**Orange and Black Salad:** Drain and chill apricots from a No. 2 can and one and one-half cups of orange sections. Place them attractively on lettuce hearts. Garnish with one-half cup of stoned dates which have been stuffed with cream cheese. Pour over French dressing with chopped fresh mint added. This serves eight persons.

## FINAL DATE FOR ENROLLMENT

IN THE TEXAS CENTENNIAL FARM AND HOME DEMONSTRATION CONTEST ENROLLMENT ENDS NOV. 1.

Do you live on a State Highway? Does your property touch the highway? Then you are eligible to enter the Texas Centennial Farm and Home Improvement Contest.

It was stated at the Farmer's Short Course at College Station in July, that your house did not have to be right on the highway to enter this contest which is being sponsored by the Dallas News and the Semi-Weekly Farm News. The house may be several miles from the highway, just so your property reaches the road.

The final date for enrollment in this contest has been set for November 1. If you are interested, please get in touch with the County Farm or Home Demonstration Agent.

Rules and Regulations, a list of the prizes offered, score cards and enrollment cards can be secured at the county agent's office in Anson.

### FILLED PANTRY TO OVERFLOWING

"I have canned and helped can over 600 containers of fruits and vegetables this year," said Mrs. B. L. Whaley, South Hamlin Home Demonstration Club. "And the canning season won't be over for some time yet," Mrs. Whaley added.

Mrs. Whaley has already had to enlarge her pantry storage space that she built last year when she was pantry demonstrator in her club.

### HELPS NON-CLUB MEMBERS

"I have assisted 14 non-club members with some phase of Home Demonstration Club work," said Mrs. Sam Herndon, 4-H Pantry Demonstrator in the Pleasant Hill Home Demonstration Club.

"This help has been given in canning, sewing and loaning my pressure cooker and sealer. I have helped several of these families two and even three times," Mrs. Herndon stated.

Besides doing all this expansion work Mrs. Herndon is filling her Family Food Budget which is one of her goals as demonstrator.

## Field Day at Spur Experimental Station, Friday, September 20th

An All-West Texas Field Day at the Spur Experiment Station has studies to defective eye sight in the human race.

is to be one of the most outstanding agricultural events ever in the Western part of the U.S. Delegations headed by County cultural agents and vocational agricultural teachers from over 40 counties have already made plans to attend. There will be no SPEECH MAKING but the results of experiments conducted at the Texas stations will be discussed by the best authorities in the State. The chief topics for observation and discussion will be:

(1) SILOS—10:30 A.M. TILL NOON

Demonstrations in filling silos and discussions of practices will be led by specialist from the Extension Service Staff, College Station, and will range from the use of the most simple home-made slide in cutting the feed and shelling the whole plant in the silo, a practice within the reach of every farmer in Texas, to the use of the most modern machinery where the plant is never touched by the human hand. Farm machinery distributors will have on exhibit, and in operation in the field, a complete line of machinery for the making of silage.

NOON UNTIL 1:00 P.M.

Something to eat and drink. Not much.

(2) 1:00 P.M. UNTIL 2:00 P.M.

CATTLE FEEDING Experiments—Viewing the cattle that have been on test since December 3, a period of 300 days and the results of experiments conducted at the Spur station. A series of new studies that are of interest not only to the cattle feeder but of tremendous importance to cotton farmers and oil-mill feeders. A new outlet for the cotton farmers products. A reduction of the risk element in oil-mill feeding. A vitamin problem discovered and solved.

These discussions will be led by a scientist from the Experiment Station Staff at College Station who will term, returned home last week.

## LITTLE LIGHTS ON LIVING

By MARIA LEONARD  
Dean of Women, University of Illinois  
© Western Newspaper Union.

THE STORY OF A CANTERBURY BLUE BELL

A SUMMER in Canada on an island in Lake Huron gave the opportunity for tramping miles over beaches of all kinds, smooth sand and stones, sunshine and shade as one's mood would lead. For a lover of beaches this was a paradise.

We discovered one day on an unusually long hike along a rocky shore, a Canterbury blue bell growing alone, sans friends of any description. Our first thought was to carry it back, roots and all, to the cottage in the woods and give it a chance to live, with loving care. "No," we argued with ourselves, "others will come this way perchance and love it, quite as much as we." So we rested a bit, enjoying it, on the lovely coast line of lake and land.

Soon some children came sauntering lazily down the beach, among them a lad about ten years. Seeing the blooming flower, he came near to it, whipped it off with his stick, and walked nonchalantly on. There it lay, my beautiful Canterbury blue bell, on the rocks, bruised and lifeless!

I sat for some time in silence on the shore, recalling the numberless times I had seen automobiles stopped on the highways in our own country, and I remembered watching with rebellious spirit the owners pulling off the limbs of beautiful trees, bordering the roadside in the springtime, ruthlessly whacking away at nature's loveliest and most delicate handiwork, only to find them wilted and perished soon after they returned home.

Is this not another form of selfishness all too common in pleasure seekers? Surely there can be no thought for the enjoyment of others, when one is marring the roadside's beauty, where thousands pass daily. This

George Bury, who received his B.A. degree from the University of Texas at the close of the summer term, returned home last week.

crime, for such it is against nature and beauty lovers, is equalled only by the twin sin of putting up unsightly bill boards to advertise hotels, liver pills or what not, in a beautiful nearby field or forest.

What must mother nature think of man's cruelty when she does all she can to beautify her handiwork and he does all he can to butcher it? Isn't there some reverence lacking in the older generation that these things occur? When children see with their own eyes such mutilation, why would they not do the same? We have not as yet included in the education of our youth the refining subtle study of Beauty, beauty not only of nature's loveliness but beauty of human nature as unselfishness, beauty in conduct, beauty in character. Beauty is a thing alive, it is a spirit.

Many a Friend Recommends  
**BLACK-DRAUGHT**

People who have taken Black-Draught naturally are enthusiastic about it because of the refreshing relief it has brought them. No wonder they urge others to try it! ... Mrs. Joe G. Roberts, of Porterville, Ala., writes: "A friend recommended Black-Draught to me a long time ago, and it has proved its worth to me. Black-Draught is good for constipation. I find that taking Black-Draught prevents the bilious headaches which I used to have." ... A purely vegetable medicine for the relief of CONSTIPATION, BILIOUSNESS

Mrs. Doris Holdridge, who has been taking a course in Beauty Culture in the Jolly Beauty School in San Angelo, has returned to Hamlin to be with the Magee Beauty Shop

S. J. Hodges, manager of the Stamford Grand Theatre was over Wednesday posting Hamlin for the Will Rogers 3 days picture, "Steamboat Around the Bend" that is to start there Saturday night and end Thursday night, Sept. 17, with matinees each afternoon. He said this same picture appears in all the larger cities on the same dates, and he felt congratulated that a small town like Stamford could get the picture at this time.

Miss Katherine Magee is in Hargrave with her sister, Mrs. J. A. Wilhite, whose husband was seriously hurt in an auto accident several days ago. Mr. Wilhite is reported to be slowly improving.

Miss Claudia Morgan renews her subscription to the Herald and has it sent to her address at Valdosta, Ga. She has a lot of friends in Hamlin she keeps up with through the Herald.

Mrs. John W. Roberts of Knox City returned last Thursday after spending two weeks here with relatives. Mr. and Mrs. W. D. Bradshaw,

Cactus, Seared of Thorns, Fed to Cows

A scourge to ranchmen in ordinary seasons, the lowly prickly pear has been of untold value to Southwest Texas stockmen during the last few months. With a national shortage of feed and forage crops, due to drought and curtailment, cattlemen have found that a blowtorch will burn all spines from the meaty prickly pear leaves in minimum time. Then cattle, turned in to feed, eat the cactus with relish. Above is a typical picture from the cattle country, showing Herefords following in the wake of the blow-torch. (Texas News Photos.)

## Churches and Church Activities

### METHODIST CHURCH CONDUCTING REVIVAL

CHURCH OF THE NAZARENE

"In the early days" there was a clock known as the "Seven Day" clock. On hearing the clock strike in a drawn out, slow and lazy manner, the wife called out to the husband to wind the clock for the striking side was about run down. On the following Sunday morning the wife called out again, but this time it was, "Husband, are you going to church?" Reading on a bit then answering in an unconcerned manner, mostly in the negative, the little boy had his say, "Daddy, wind the religious side of yourself, its about run down."

We will announce our new General Superintendent and the three Division Superintendents, in Sunday School work for the next year, next Sunday A. M. A call session of the Quarterly Conference will be held at the close of the morning service. All members of our regular Conference body should be present. The regular session will be held Sunday, Sept. 22, at which time all the general officers in the S. S. and all members of the Board of Stewards will be confirmed and legally placed in office.

Our general discussion Sunday at 11:00 A. M. will be concerning "Five Palpitating Hearts." One of them should be yours. Sunday, 8:00 P. M. "What Corner Are You In?" It seems that God has designed, in His word, to cover every emotion, meet every excuse, and expose every plan of mankind in our endeavor to evade, side-step, and excuse ourselves of our responsibility to God and our fellow man. He is not willing that any should perish but that all might come to humble submission and learn to live victoriously while on earth and gloriously in heaven.

H. A. LONGINO, Pastor.

Mrs. J. D. Moss and daughter, Miss Roberta, of Denton, and son, Jack Moss and wife of Houston, were guests Tuesday in the home of Dr. and Mrs. A. E. Pardue.

REV. E. G. THEUS  
Of Bethany, Oklahoma.

Rev. Theus preaches the old time Bible gospel, free from fanaticism on one hand and from dead formalism on the other. He is a member of the executive board of Bethany-Peniel College, of Bethany, Oklahoma, and as such is in direct touch with the young life of our church, and in deep sympathy with the same.

We therefore invite the young people of Hamlin to our meeting and to the choir to assist in the singing, and we especially invite singers from the other churches at such time as will not interfere with your own church services, to come and assist us.

The meeting will continue till Sunday evening September 22. If you are a stranger in the city, then visit our church and we will do everything

in our power to make you feel at home.

J. H. WHITAKER, Pastor.

## FOUR HUNDRED YEARS BIBLE

NEW YORK, Sept. 9.—Hundreds of communities throughout the U. S. intend to participate actively in observing the four hundredth anniversary of the first printed English Bible, it was announced here today by the national committee in charge. The anniversary observance is scheduled to commence on Friday, October 4, and to culminate on Universal Bible Sunday, December 8th.

In addition to a national committee of twenty-six members, approximately two hundred prominent laymen across the country have been organized into eleven regional committees and are now completing plans for special observances in their respective areas.

The influence of the Bible upon the life, literature, art, and civilization of the English-speaking peoples of the world will be reviewed. The observance in many communities will include a surveying who have the Bible and where it is used. In many of the communities public mass meetings will be promoted and in thousands of individual churches addresses, series of sermons, pageants, and special services are planned.

The National Commemoration Committee is composed of James Rowland Angell, president of Yale University, and many others.

## Welding

*...the best way to make a perfect union of two pieces of metal is by welding them together.*

... and the best way to get a more pleasing flavor and a better taste in a cigarette is by welding together the different types of tobacco . . .

That is just what we do in making CHESTERFIELD Cigarettes—the three types of mild ripe home-grown tobaccos, that is tobaccos grown in this country, are welded together. Then they are welded with aromatic Turkish.

When these tobaccos are welded

together you get a combined flavor which is entirely different from any one type of tobacco.

It is this welding of the right amounts of the right kind of tobaccos that makes CHESTERFIELD a milder and better-tasting cigarette.

Chesterfield... the cigarette that's MILD  
Chesterfield... the cigarette that TASTES BETTER

## There's lots of room in the FORD V-8

EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types — the whole car gives you a feeling of substantial size.

Rear seats are wide and restful . . . three people can ride comfortably in the front seat of the Ford Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupe and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.

The Ford gives you extra body room because of the compact design of the V-8 engine — an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a

### MISS MARIE WILLIAMS AND MR. TOM VAUGHAN MARRIED

Rev. Millard Jenkins, pastor of the First Baptist Church of Abilene, spoke the words that united Miss Marie Williams and Mr. Tom Vaughan, in a wedding ceremony at his study, at 5:45 P. M. Monday, September 9th.

Those present for the marriage were the parents of the bride, Mr. and Mrs. Frank Williams and their daughter, Miss Louieima, Mr. and Mrs. Grogan Turner and Misses Ruby Dean, Ruby White, Ruby Thompson, and Mary Boyd.

The bride wore a dress of medium blue with accessories of navy blue.

Following the marriage the couple left immediately for a trip to points in New Mexico, after which they will make their home in the General Crude Oil community west of Hamlin.

Mrs. Vaughan, is a daughter of Mr. and Mrs. Frank Williams of Hamlin, and has lived here for about seven years. She is a lovable and talented young woman, numbering her friends by all who know her.

Mr. Vaughan grew to manhood here, a son of Mrs. Sam Vaughan and of the late Rev. Sam C. Vaughan, one of Hamlin's earlier citizens. He holds a responsible position in the oil industry, in the employee of General Crude.

### My Favorite Recipes

Frances Lee Barton says:

WE get some hot days in June when a cool and delicate dessert is just perfect—and Snow Pudding, not only by name, but by nature, is a dessert which most grateful to the palate on a sultry June day. Try it on the family some evening when it's so warm that the very air seems heavy with its burden of heat. And here's a thought—let the family take its plates of pudding, with its glasses of cool drinks to the porch (or the coolest part of the house) and finish out there. That makes a party of it!

Coconut Snow Pudding  
1 tablespoon granulated gelatin;  
1/4 cup cold water; 1 cup boiling  
water; 1 cup sugar; 1/4 teaspoon  
salt; 1 1/2 teaspoons vanilla; 3/4 cup  
shredded coconut; 2 egg whites,  
stiffly beaten.

Spoon gelatin in cold water 5  
minutes, add boiling water, and stir  
until dissolved. Add sugar, salt,  
and vanilla. Chill until cold and  
syrupy. Place in bowl of cracked  
ice or ice water and whip with  
rotary egg beater until fluffy and  
thick like whipped cream. Fold in  
coconut and egg whites. Turn into  
shallow pan, 8x8 inches. Chill un-  
til firm. Cut in 1-inch cubes. Pile  
cubes in sherbet glasses. Serve  
with lemon sauce. Serves 10.
